OUTDOOR POLY FURNITURE
2026 CATALOG

Spend More Time Outdoors

Paradise Outdoor’s pieces are all finely crafted from Tangent sustainable lumber, a superior wood alternative that we love for its supreme strength and longevity. Beauty, too. Our new designs and favorite classics make up a thoughtful collection that looks great, feels wonderful, and goes the distance.

Because UV protection is built into all of our premium poly lumber furniture, you’ll never need to re-finish or re-paint it. Our furniture is resistant to pests, moisture, mold and mildew – and stays fresh and beautiful, even in extreme heat or cold climates. No fading, rusting, cracking or splintering. Simply clean with soap and water. It’s low maintenance. Which means you’ll do less working – and more living. Preferably outdoors!

And because Paradise Outdoor Designs cares about the future, we believe in Tangent’s “green building” – a holistic concept that promotes positive effects on the environment throughout the entire building life cycle, from building design to construction and even the manufacturing process of the building materials. The aim of green building is to make efficient uses of land, materials, energy, and water, generate minimal waste, and provide healthy environments by restoring, improving, or enhancing the natural environment. Tangent’s green construction materials are designed with these principles in mind.

We love that each year, Tangent diverts millions of pounds of post-consumer and post-industrial plastic from the waste stream. Tangent recovers millions of pounds of plastic and transforms it into their recycled plastic lumber. They demonstrate accountability to customers by contracting with GreenCircle Certified, LLC, a third-party firm to audit and provide annual certification of their environmental claims.

On July 1, 2015, Tangent achieved Recycled Content Certification by GreenCircle. This certification qualifies and substantiates their compliance with Federal Trade Commission (FTC) 2012 Green Guidelines, so that Tangent and its customers move forward with confidence.

Key customers and Tangent established a collaborative system whereby plastic scrap generated at shops like Paradise Outdoor Designs is returned to Tangent for reuse and recycling back into the same or similar products within their manufacturing operation. GreenCircle has audited and certified this take-back program and awarded Tangent a Closed-Loop Product Certification.

Product Care

Paradise Outdoor Designs furniture never needs to be painted or stained because it is built with recycled plastic that will not rot or splinter. The color will never wear off because it is embedded throughout the product. A UV protective agent keeps fading to a minimum. Poly furniture is not affected by most corrosive substances, and will not promote bacterial growth.

Cleaning is easy. Most dirt wipes away with nonabrasive soap and water using a soft sponge. Tight corners can be cleaned with a plastic bristled brush. Surface dust can simply be hosed off. Stubborn marks can be removed with a magic eraser. For rust spots, scrub the furniture with Iron Out. For a deep clean, use a pressure washer on the lightest setting and at no more than 1,500 psi. Do not place the tip of the pressure washer closer than 10"-12" from the furniture or it may damage the finish.

Surface protection – Flower pot residue should be removed regularly to prevent staining. Do not use sharp objects such as knives on your furniture. Avoid setting items with sharp edges on the furniture, including tools, metal, gravel, or dirty items. To avoid melting, do not place hot items directly onto the furniture.

All fasteners on **Paradise Outdoor Designs** furniture are 316 grade stainless steel. This high-grade stainless steel will not rust in a normal outdoor environment. If your furniture is heavily exposed to saltwater, occasionally rinse it with fresh water to maintain a rust-free surface.

All fasteners should be checked periodically for tightness.

Simple cleaning is all you need to do to enjoy beautiful **Paradise Outdoor Designs** furniture for many years!

From our shop to your home, our goal is simple: elevate everyday living by spending more time outdoors.

Our family has been crafting quality furniture for over 29 years in the farmlands of Amish Country. Today, our second-generation makers use the skills that their father, a distinguished woodworking craftsman, passed down. This dedication to quality, and sensibility for producing beautiful furniture inspires us to create outdoor furniture that is both lounge-worthy and highly durable.

Our all-weather poly lumber designs are crafted from the highest quality, high-density polyethylene plastic (Tangent). The result is highly durable furniture that is UV-, moisture-, and pest-resistant, so it can be enjoyed in all seasons and climates.

Our collections of colors and wood-grains won't fade or transfer on cushions or clothing – even when wet. And, you'll find that our furniture can withstand hot sun, snow, rain, salt spray, and even rambunctious kids and dogs.

We've designed our furniture to be low-maintenance – just how outdoor living was meant to be. Simply wipe clean with soap and water as needed. No additional staining, treatment, or upkeep is needed.

From porch-sitting to pool parties, cozy bonfires, and everything in between, we hope our outdoor furniture will become a well-used backdrop for family gatherings, fond memories, and cherished traditions.
